

Felipe Pouysségur

Semi Senior QA Automation Engineer

felipepouyssegur@hotmail.com | Mar del Plata, Argentina | (+54) 9-2235-929314

SUMMARY

Semi Senior QA Automation Engineer with 4 years of IT experience, specialized in Tricentis Tosca and Playwright with Python. Background in full-stack development with JavaScript, React and Node.js. Quick to ramp up on new technologies, having led automation efforts in fast-paced environments. Actively exploring agentic AI and how to integrate large language models into automated workflows and testing processes. English level: C1.

WORK EXPERIENCE

Accenture

August 2023 – Present

Test Automation Engineering Associate

- Led the migration to Playwright with Python, incorporating agentic AI and MCP into automation workflows.
- Independently automated a complete banking channel from scratch using the new stack.
- Functional and regression test automation for web banking channels at Banco Patagonia using Tricentis Tosca and Playwright with Python, including integration testing with APIs and AS400.
- Rapid onboarding on Tosca through official Tricentis certifications, successfully automating multiple banking channels in a short timeframe.
- Creation, execution and maintenance of unattended test suites, including updating and fixing outdated test cases.
- Bug reporting and defect tracking in collaboration with the client, and incident management with Tricentis support.

DT235

February 2023 – August 2023

- Full front-end development and back-end collaboration using React, Node.js, Mongoose, GitFlow and Jira.
- Application for recording and analyzing real-time sports events and statistics.

Estudio Jurídico N&P

March 2020 – February 2023

- Handled claims, attended conciliatory hearings, and represented banking institutions, health insurers and insurance companies.
